DETAILED ACTION

Reasons for Allowance

- 1. Claims 1-20 are allowed.
- 2. The following is an examiner's statement of reasons for allowance:

Independent claims 1, 12, and 15 have been carefully considered. Prior art of record fails to teach the combination of claimed elements including an application program calling to request a display attribute for an event object to be displayed; in response to the request, indexing a table, located externally of the application program, with an event type and a screen capability flag to obtain display attributes; the table having an event type list having a plurality of event types, and a plurality of display attribute lists, each attribute list having a display attribute corresponding to each event type, and each of the display attribute lists corresponding to a different potential display capability.

Dunsmuir et al (US 5,638,522) discloses a method of signaling that an event has occurred. The system outputs control signals to control the operation of a plurality of devices. Dunsmuir teaches a graphical user interface (GUI) that defines and displays control signals based on events and conditions. However, Dunsmuir does not teach or suggest that the GUI may be indexed based on a display

capability, and it does not teach that the symbols representing events are screen capability flags defining the display capability that the display screen has.

Bogdan (US 5,903,265) discloses an operating system that allows users to customize window elements. The invention enables users to obtain resources outside the application to get the display attribute. However, Bogdan fails to teach or suggest indexing a table with an event type and a screen capability flag to obtain the display attribute.

Conclusion

- 3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
- 4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to X L Bautista whose telephone number is (703) 305-3921. The examiner can normally be reached on Monday-Thursday (8:00-18:00), Fridays Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John W Cabeca can be reached on (703) 308-3116. The
